CAUTIOUS DRIVING IS WHAT LAJADA HILL NEEDS

Senator Barth Comes to that Conclusion After Confering with State Engineer French. Repairing Road.

After considering the matter with State Engineer J. A. French, Senator Barth today, "is not on the logical road from Santa Fe to this city and it must be accepted simply as part of what is primarily a scenic highway. It is not practical to make the road on La Bajada hill a boulevard, the state engineer tells me, and I do not question his judgment. I know Mr. French to be thoroughly efficient, and what he does to a road car, he accepted as the best thing that can be accomplished under the conditions imposed on him.

"La Bajada," said Senator Barth today, "is not on the logical road from Santa Fe to this city and it must be accepted simply as part of what is primarily a scenic highway. It is not practical to make the road on La Bajada hill a boulevard, the state engineer tells me, and I do not question his judgment. I know Mr. French to be thoroughly efficient, and what he does to a road car, he accepted as the best thing that can be accomplished under the conditions imposed on him.

"The state engineer told me when I saw him recently that work would be started in a day or two from that time on the hill, and I suppose they are now at the job. The work was to include filling in the cut and worn places and a wall around the bad loop. That will be about all that the state can do practically.

"For the rest, it is up to the automobile driver. If he will take the turns coming down slowly, running on his low speed, there will be no accident. All the recent accidents—and there have been five of them—occurred because something broke as the car was making the turn. I caution motorists to go down on low, instead of coasting, because they will have better control over their cars that way.

"The scenery by way of La Bajada

CAVIN JUST CAN'T MAKE HIS HANDS BEHAVE RIGHT

Same Day He Finishes Serving Three Months for Theft He Snatches \$3 from an Expressman.

Ninety-day sentences are getting to be a habit with Jack Gavin. He finished one yesterday and drew another this morning.

On June 27 Gavin, who came here from Arizona, snatched a watch from a man in a Central avenue saloon. He pawned it for \$1.50 and was captured by Officer Miller with the proceeds and the pawn ticket shortly afterward. Next day Police Judge Craig gave him ninety days.

He finished the sentence yesterday morning and returned to the outside world. Last evening he took \$3 from H. B. Schuster, an expressman, who thought it was a joke at first, as did the man from whom Gavin took the watch in June, but like the previous victim, he woke up to the fact eventually that Gavin hadn't any humorous intention. Then he hunted up Officer Charles Malin, and Gavin's arrest followed.

This morning Police Judge Craig duplicated the former penalty, and the ex-Arizonan went back to jail.

An international meteorological congress, under royal patronage, will be held at Venice in September.

A shoe has been patented with a built-in metal support for fallen foot arches.

NOTHING KNOWN OF HOW SWENSON MET HIS DEATH

Letter Written Before Body was Found and Telegram Announcing Death all Known of Forestry Man's End.

Beyond the fact that his body has been found after a lengthy search by friends and associates near Baylis, Cal., absolutely nothing is known here as to details of how Otto L. Swenson, formerly with the United States forest service here, met his death. Mr. Swenson was a timber expert and mapman in the forest service. He died three months ago when he was transferred to the Indian service and stationed in California. He had been prominent and popular generally with the younger Albuquerque set.

A day or two since a young lady with whom Mr. Swenson had carried on a casual correspondence received a letter from W. C. Randolph, of the Indian service at Baylis, enclosing a letter addressed to her by Swenson and which had not been mailed. Mr. Randolph's letter stated that Swenson had been missing for several days and that a search was being made for him by organized search parties. The letter enclosed was merely a continuation of a friendly exchange of correspondence. Yesterday the young lady received a telegram from Mr. Randolph dated Baylis, Cal., stating that Swenson had been found dead; that his brother was on the way to Baylis and that the body probably would be sent to Nebraska. Nothing to indicate the manner or cause of death was given.

ASK CONGRESS FOR NATION WIDE PROHIBITION

Presbyterian Synod Adopts Strong Resolution on Temperance and on Sabbath Observance.

At its opening meeting last night the 26th annual meeting of the Presbyterian synod of New Mexico elected Rev. H. J. Cumstion of Tucson, N. M., as moderator, succeeding Rev. Hugh A. Cooper of Albuquerque, Rev. J. R. Fitzgerald being elected temporary secretary. Mr. Cooper, the retiring moderator, opened the synod with a strong sermon from the text: "Give Ye Them to Eat."

The session this morning was opened with devotional service conducted by Rev. Dr. Charles D. Darling of Roswell, who had for his subject: "We Have Found Him." The moderator called the synod to order.

The first order of business was the reports of committees and when the committee on temperance read its report, which was adopted, Rev. B. Z. McCullough of Santa Fe offered a resolution that the synod petition our representatives in congress to vote for the submission of the constitutional amendment for nationwide prohibition. The resolution was adopted with the singing of a verse of the national hymn.

The report of the committee on Sabbath observance brought forth a flood of eloquence in which indiscriminate recreations and sports on the Sabbath were strongly condemned. The report of Sunday school work was read by the moderator, Mr. Cumstion and the report was elaborated by Rev. Mr. Winder, the Sunday school missionary who read an exhaustive report. Rev. Hugh T. McChesmore, of Elephant Butte made a stirring address on the needs for Sunday school extension work in isolated and sparsely settled districts.

This afternoon the synod is engaged with a business session devoted chiefly to the detail business of the synod. Tonight at 7:30 a popular meeting will be held in the Presbyterian church, where the synod is sitting, when addresses will be delivered by Mr. J. M. Patterson of St. Louis, Rev. B. P. Fullerton, D. D., of St. Louis, and Rev. George S. McCune of Korea. The program for tomorrow's session is as follows:

8:30 a. m.—Devotions, led by Rev. B. Z. McCullough.
9:00 a. m.—Home missions.
10:00 a. m.—Devotional topic: "Efficient Prayer." Reports from vice president and departmental secretaries. Business. Election of officers. Method hour and question box.
12:00 m.—Recess.
2:00 p. m.—Devotional topic, "Intercession." Echoes from annual meetings. Address, "Over Sea and Land," Mrs. Guy S. Davis, field secretary.
3:30 to 4:00 p. m.—Conference, "The Presbyterian United Methodist; How It Helps." Led by Dr. Fullerton and Mr. Patterson.
4:00—Free automobile ride to visitors.
7:00 p. m.—Popular meeting: "Home Missions in New Mexico." Rev. John H. Gase, D. D., presiding. Brief addresses by Rev. H. J. Cumstion, Hagerman, N. M.; Rev. Victoriano Valdez, Taos, N. M.; Rev. Henry C. Nation, Laguna, N. M.; Rev. John D. Henry, Deming, N. M.

DARING ATTEMPT TO ROB DENVER BANK
Denver, Sept. 25.—William Griffin, an 18-year-old youth, was arrested here today on a charge of attempting to seize a bundle of bank notes from a teller's cage in the Denver National bank. The attempt was made while the bank was filled with customers about the noon hour. Griffin was chased several blocks by the bank messenger before he was captured.

New Cotton Exchange Rules.
New York, Sept. 25.—The special committee of the cotton exchange which has been conferring with the department of agriculture, with the object of drawing up new by-laws to meet the requirements of the cotton futures law, reported to the board of managers today.

The committee recommended that when the exchange opens for business trading in the old style contracts be confined to liquidation and that all new business be on contract basis on the government grades.

Other changes contained were the fixing of differences and grading and object of drawing up new by-laws to meet the requirements of the cotton futures law, reported to the board of managers today.

EXPORT PIANOS

The Baldwin Piano Co.

is probably the largest exporter of American pianos in the United States. Our product goes to forty-nine countries of the world. The European war having temporarily cut all transportation facilities, many carloads of the finest

Piano and Player Pianos

on the way to seaports are returned to us, and orders ready for shipment have been held up. In order to keep our export manufacturing organization intact until new transportation arrangements are completed, we must dispose of these instruments at once in the domestic market. All instruments originally intended for the European trade are of the highest class, and include all our makes:

**The Baldwin Piano and Baldwin Manualo
The Ellington Piano and Ellington Manualo
The Hamilton Piano and Hamilton Manualo
The Howard Piano and Howard Manualo**

These are refined American styles, much sought after in France and Russia. There are also some South American styles, originally intended for South America, Spain and Italy.

WE WILL SELL ALL OF THEM AT ONCE IN OUR DOMESTIC TRADE AT A GREAT SACRIFICE.

Our factories have allotted to us a quantity of this stock, with positive instructions to sell at once at irresistible prices.

Avail yourself of this opportunity to purchase a really fine instrument at a price much below its real value.

BIG WOOL FIRM TO GIVE A CUP FOR PRIZE GOAT

Brown & Adams Offers Handsome Trophy to be Awarded at State Fair. Huge Flag, School Prize, Received.

Another handsome cup has been added to the goat prizes to be offered at the state fair, October 1 to 10, Brown & Adams, the famous Boston wool merchants, have notified Secretary Tom Binkert, of the fair commission, that they will give a trophy for the champion Angora goat of a year's growth with the finest fleece.

Secretary Binkert has received from F. J. Burch & Co., of Pueblo, Colo., an 8-foot American flag which is to be given for the best display by a state or other school.

Distribution all over the state was begun today of posters advertising Santa Fe railroad excursions to the fair. There are 10,000 of the posters in English and 5,000 in Spanish. The state will be awash with them for and wide.

HIDDEN DANGERS.
Nature Gives Timely Warnings That No Albuquerque Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are weak. Weak kidneys excrete a clear, amber fluid. Weak kidneys send out a thick, pale and foamy, or a thick, red, slimy urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and warn you of the danger of dropsy, gravel and Bright's disease. In that case Doan's Kidney Pills have been endorsed by thousands. Here is a statement of a grateful user.

Mrs. E. E. Hood, eleven miles from Moriarty, N. M., says: "I have heard enough said about Doan's Kidney Pills by one of my relatives to convince me that this remedy is of great value. Several years ago when I was visiting this person, he told me he had used Doan's Kidney Pills. His trouble was pain in the back and other distressing ailments, caused by his kidneys failing to do their work as they should. Doan's Kidney Pills benefited him so much that I know they are a fine kidney medicine."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hood had. Foster-Milburn Co., Props., Buffalo, N. Y.

BILL FOR GLASS IN NEW CITY HALL WILL BE BIG

Windows that are to Give Structure Finished Appearance to Cost About \$600—Sashes Being Made.

Lumber for the flooring of the new city hall was received today. Work is now being rushed on the sashes for the window frames.

Sashes are all to be especially constructed for the new hall. The whole building is to be fitted with panes, and a good deal of glass will be required. Panes and the required sashes will cost about \$600.

As has been said, with the windows in the exterior of the hall will wear a finished look. The outside of the structure will appear pretty much as it would if all the floors were finished, instead of merely the first floor.

It has been estimated that the heat received in a year by the earth from the sun is sufficient to melt a layer of ice 100 feet in thickness covering the globe.

DON CARY SIGNS
115 S. Third

Your Wife

Often has to take care of the fires when you are away from home. Give her a clean fuel to handle and she will not mind it. Genuine Gas House Coke is light, clean and free from soot, smoke and dirt.
